

KONICA MINOLTA

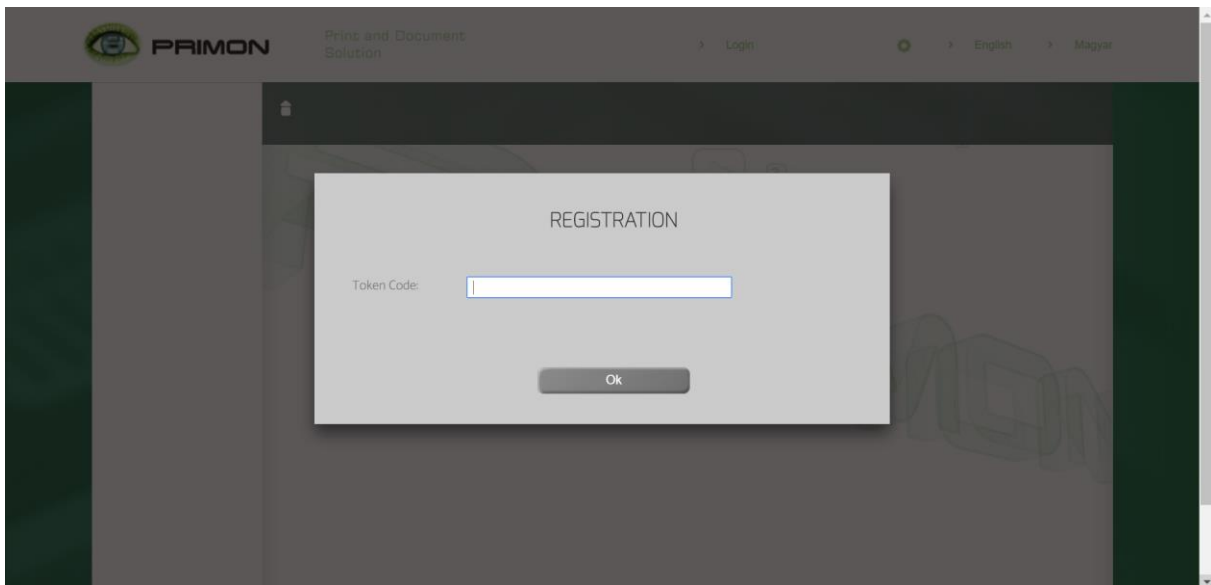

PORTAL REGISTRATION WITH TOKEN CODE

PORTAL REGISTRATION WITH TOKEN CODE

In case you have purchased one of our applications with SLA, then you can register your company at our Portal with the application's token code. For starting of the registration process, please open the link below:

http://portal.printmonitoring.com/reg_kodbol.php?Lang=EN

Please just enter the given Token Code and then select OK:

The screenshot shows the PRIMON logo and 'Print and Document Solution' text in the top left. The top right has 'Login', 'English', and 'Magyar' options. The main content is a 'REGISTRATION' dialog box with a 'Token Code:' label and an empty input field. Below the input field is an 'Ok' button.

Please note that your Token code will not be registered afterwards, it is just necessary for the authentication process.

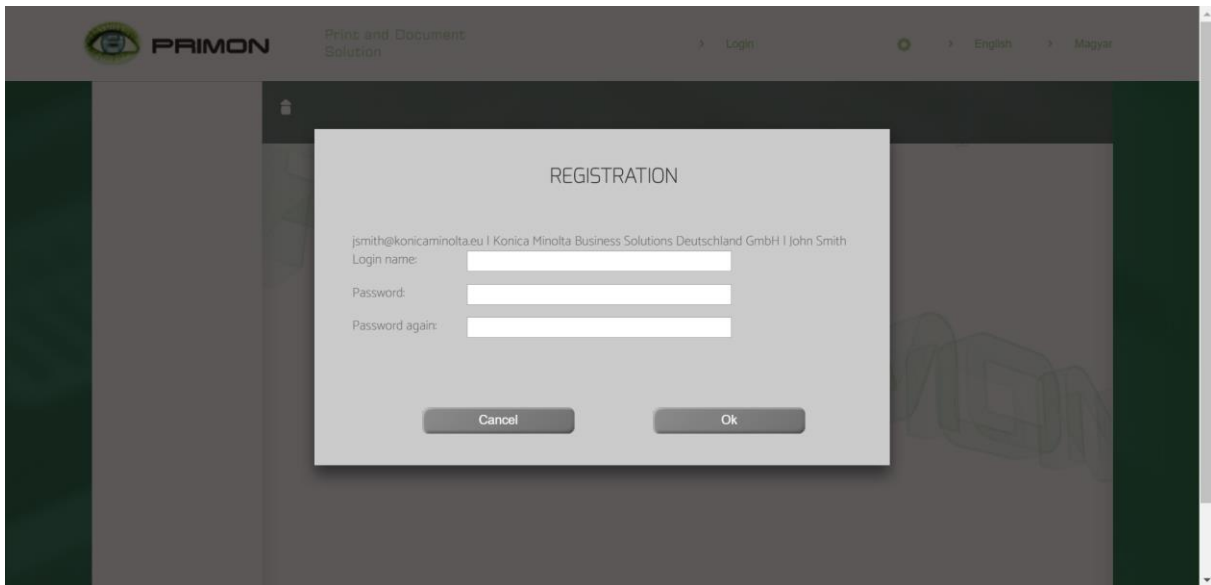

After the authentication was successful, please provide the following details of your company in order to finish the process. Please note, that all fields must be filled.

The screenshot shows the same PRIMON header. The 'REGISTRATION' dialog box now contains several input fields: 'Partner name:', 'Country code:', 'ZIP code:', 'City:', 'Address:', 'Contact name:', 'Contact email address:', and 'Token Code:'. The 'Token Code' field contains the alphanumeric string '2H2Z*W927*8RE82G*CPH234*8A9RSZ'. An 'Ok' button is at the bottom.

Then please select OK again.

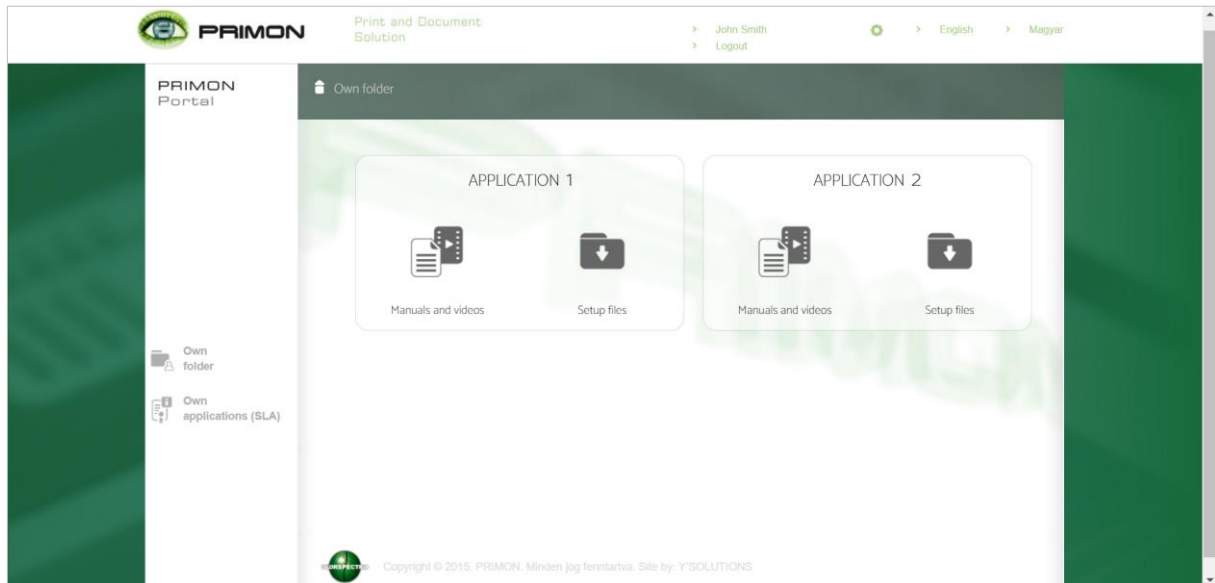

In the following pop-up window, please enter your preferred login name, and password (it must be entered twice), and then press *OK*:

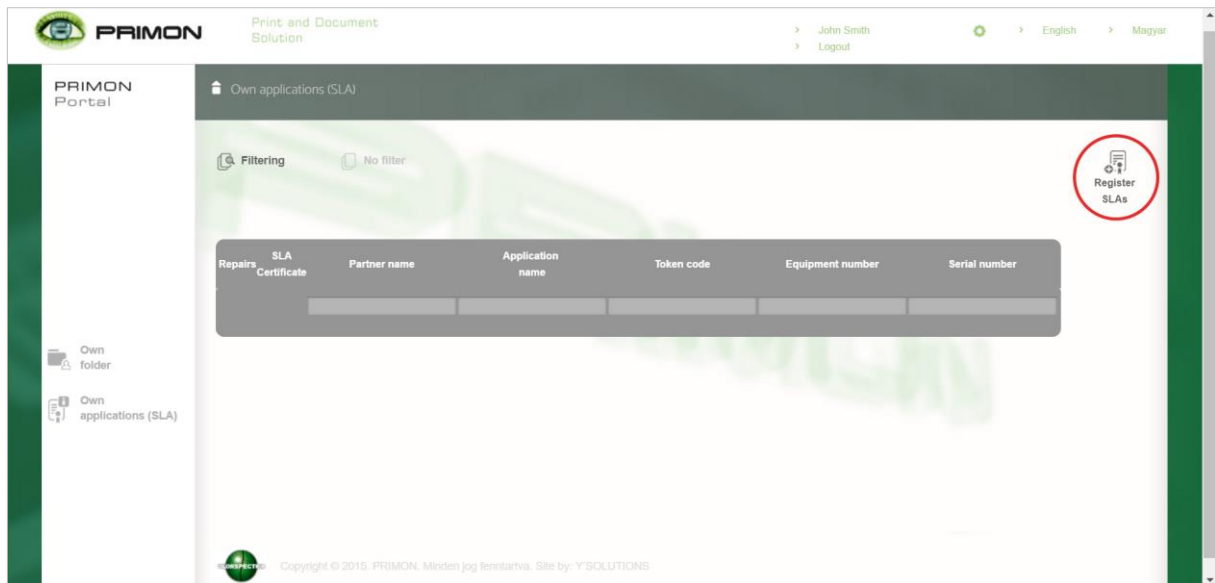

Now your company is registered to our portal, and you have the possibility to browse your own folder, register your application SLAs, or report a problem.

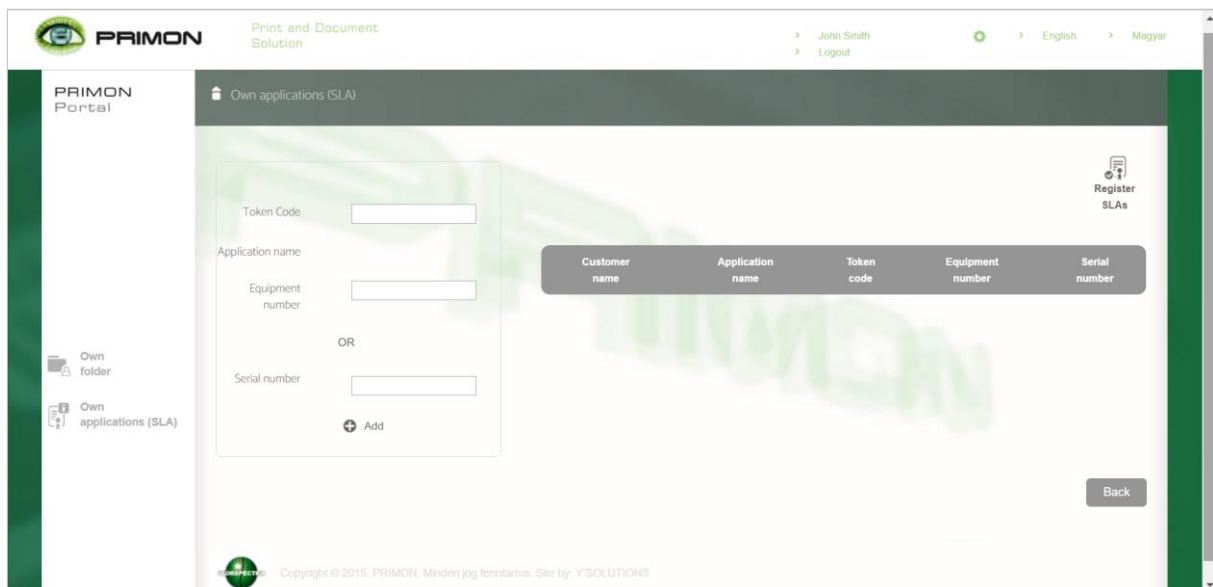

When selecting the *Own folder* menu, you can find the manuals, videos, and setup files of the application that you have purchased. The manuals can be downloaded in PDF file format, and the videos can be also viewed on YouTube. Moreover, in the *Setup files* folder, we always upload the latest versions of the apps.

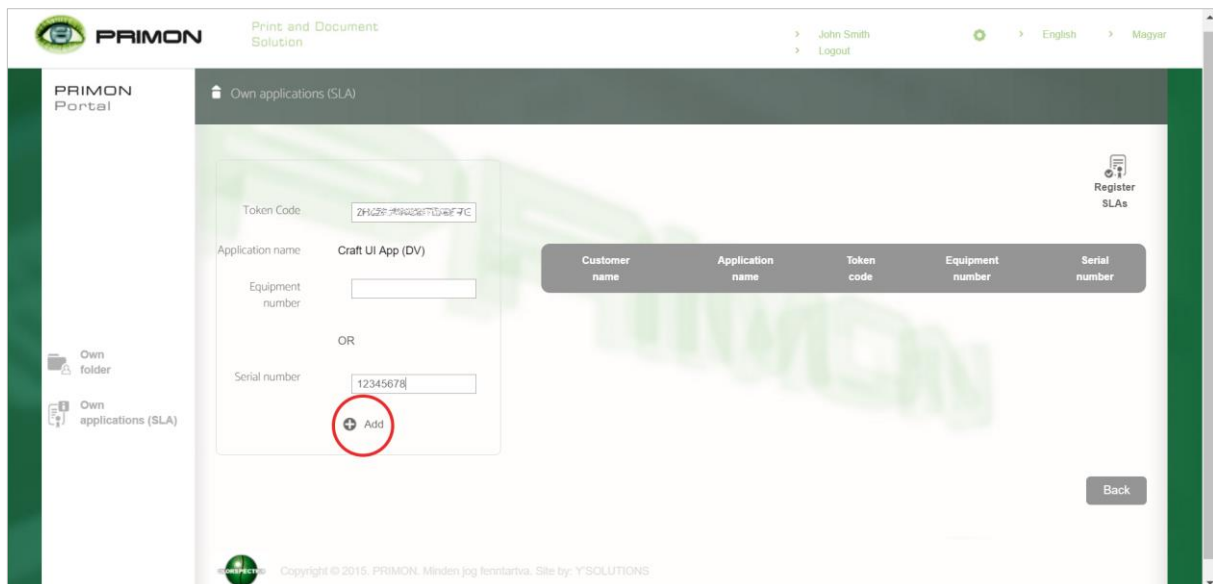

When selecting the *Own application (SLA)* menu, you will see the following image displayed below. In order to register your application SLA, please press the *Register SLAs* button (marked with red):

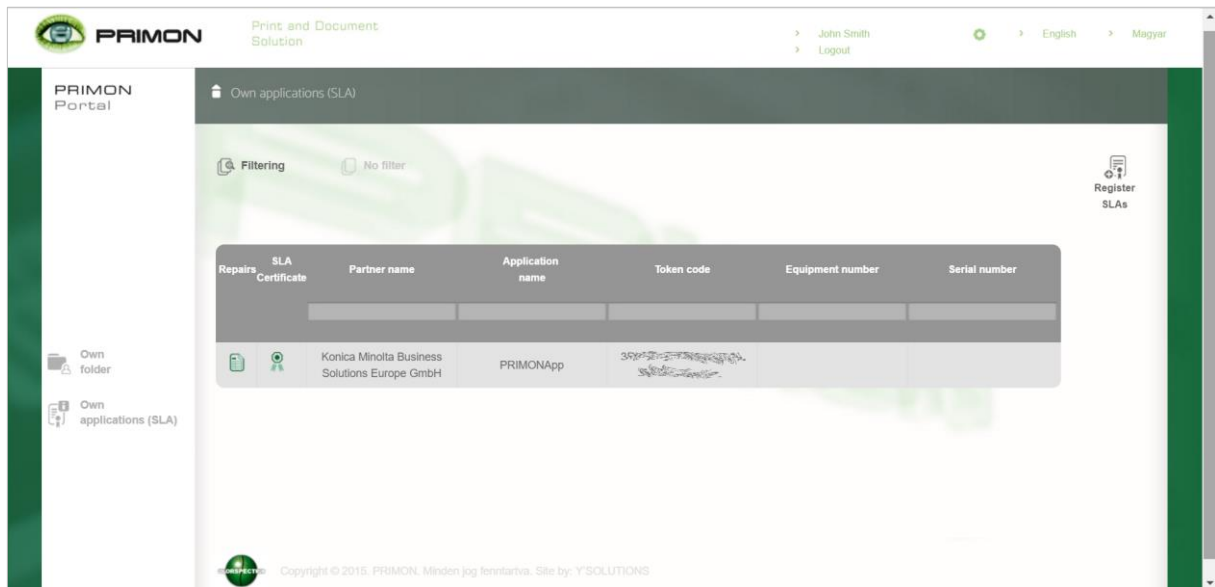

Please note that you can add more application SLAs at the same time.

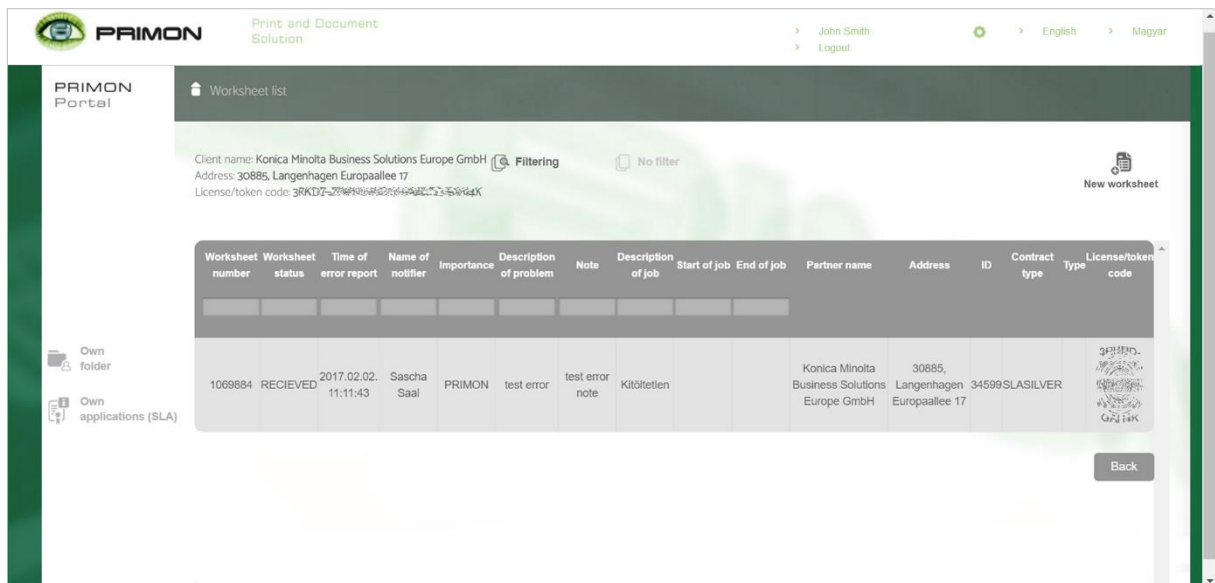

Please always enter the Token Code first. Afterwards, the application is recognized automatically. Then please enter either the equipment number or the serial number of the device you would like to register. After all information has been given, please click on Add (marked with red below):

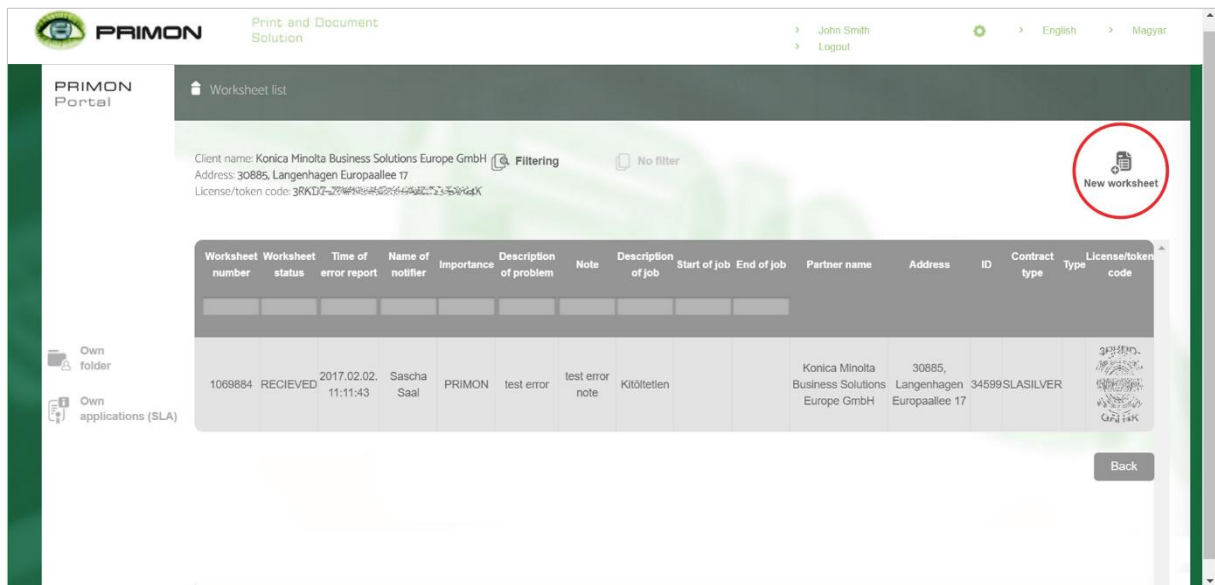

After the application SLA was successfully registered, it will be listed in the table of Own applications (SLA):

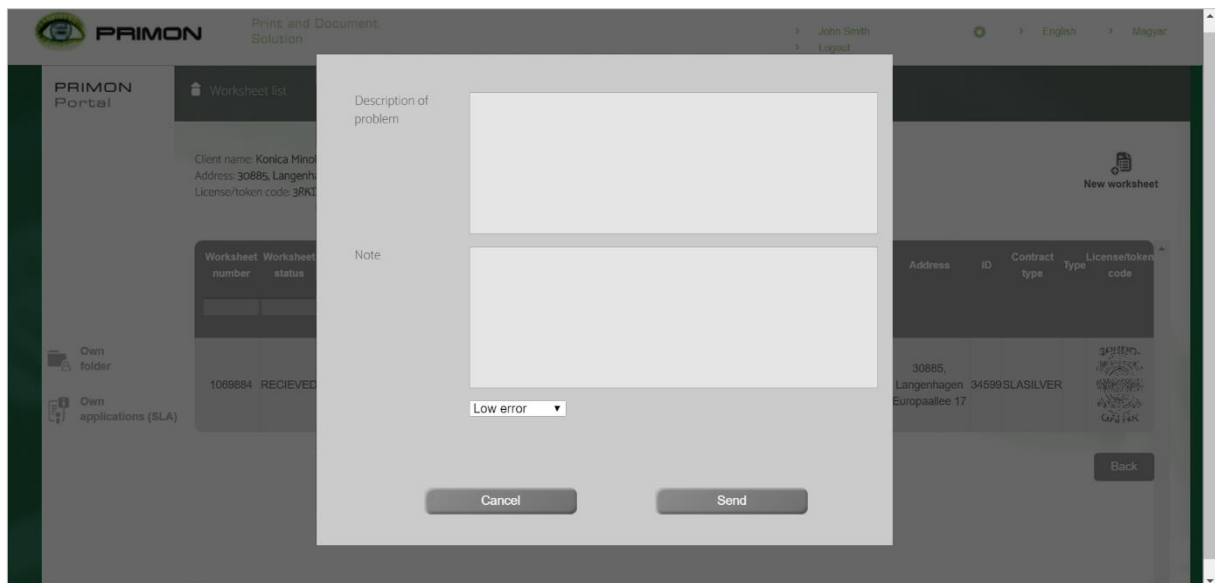

At this time, the SLA certificate of the app can be downloaded (by pressing the corresponding icon in the SLA certificate column), and by selecting the repairs icon, you can see the list of all worksheets belonging to the chosen application:

In case you would like to report a new problem, please select the *New worksheet* button (marked with red on the image below):

Afterwards, the following window pops up on the screen:

Please describe your problem, enter notes if necessary, then select the error type from the drop-down menu, and finally, please press the *Send* button.
